Trade-marks Journal

2017-07-12 — Vol. 64 No. 3272

Canada

Trade-marks Journal

Vol. 64 No. 3272

General Information

The *Trade-marks Journal* is published every week in compliance with Rule 15 of the *Trade-marks Regulations*. The Registrar of Trade-marks cannot guarantee the accuracy of this publication, nor assume any responsibility for errors or omissions or the consequence of these. All mail relating to trademarks should be addressed to the Registrar of Trade-marks, 50 Victoria Street, Gatineau, Quebec, Canada, K1A 0C9.

Electronic *Trade-marks Journal*

The *Trade-marks Journal* is available in electronic form on the CIPO web site (http://cipo.gc.ca). The *Journal* is available in PDF format and can be downloaded free of charge, viewed and printed with Adobe Acrobat Reader. The electronic form of the *Trade-marks Journal* is the official version.

The *Journal* is also available in a printable HTML format as an alternate official version, and contains a search function to narrow and customize the *Journal* content to user defined areas of interest.

Official Languages

The *Journal* is available in English and in French. The application details are displayed based on the language of the application. If the language of the application is English, the goods, services, or other text and description appearing in the English version of the Journal are in the language filed by the applicant. If the language of the application is French, the goods, services, or other text and description appearing in the English version of the Journal have been translated. Any registration resulting from the application will be restricted to these goods or services described therein.

Filing Dates

The filing date of each trademark application advertised in the *Trade-marks Journal*, including those to extend the statement of goods or services of an existing registration, is shown next to the application number in the sequence of Year, Month and Day.

Nice Classification

The *Journal* includes reference to the Nice classification when the goods or services of an application have been grouped and classed by the applicant in accordance with the current version and edition of the Nice Classification.

Opposition

Any person who has a valid ground of opposition (see section 38 of the *Trade-marks Act* for the grounds of opposition) to any application for registration of a trademark or to any application for registration of a trademark extending the statement of goods or services advertised in this *Trade-marks Journal* may file a statement of opposition with the Registrar of Trade-marks within two months from the date of issue of this publication. The prescribed fee must accompany the statement of opposition.

Goods

Components for patient monitoring systems and clinical information systems, namely, patient physiological parameter monitors; computer hardware; computer networking hardware and software; computer hardware and software for patient care documentation and information management; computer network interface devices and peripheral devices for monitoring physiological parameters and data, namely patient monitors and related supplies and accessories such as lead wires and sensors; computer network software and communication network components for patient monitoring systems; computer network and communication network components, namely, telemetry transmitter and receivers; computer software for electrocardiogram (ECG) scanning and analysis and for recording, storing and generating cardiac and apnea data; medical event recorders; computer software for acquiring, analyzing, displaying, storing, transmitting and reporting patient information and physiological parameter data; computer software for recording, organizing and storing medical data; computer software for storing, reviewing and reporting patient medical information; computer software for the analysis of electrocardiogram (ECG) signals; computer software for operating, running, collecting and analyzing data from electrocardiograph apparatuses and instruments; computer software used to capture, store, review, edit and document internal physiological activity; computer workstations, namely, computer towers, computer servers, computer monitors, and local, remote or portable computer terminals; computer workstation systems comprising clinical information servers for storing patient information, central monitoring stations, local, remote or portable terminals for providing healthcare personnel with access to patient information, and chart paper; medical workstation comprised of computer hardware and software for gathering and transmitting patient physiological data; ECG scanning and analysis computer hardware, and graphical user interface based computer software for data analysis, classification, data base management, and data archiving in the field of electrocardiogram scanning and analysis; electrocardiogram (ECG) holter recorders; electrocardiogram (ECG) monitoring electrodes; electrocardiogram (ECG) recorders; ambulatory patient medical data event recorders; microprocessor receivers and transmitters that transmit data between peripheral medical devices and a patient monitor; monitoring systems comprising monitors, servers and central workstations; video display for communicating physiological parameters to healthcare workers; video display monitors for displaying medical information; wireless transmitters and receivers for medical data; Electronic equipment for monitoring internal patient physiological activity; clinical information systems comprised of hardware and software for patient care documentation and information management and for electronic medical apparatus used to monitor internal patient physiological activity; ambulatory electrocardiograph data recording devices, namely, patient monitors and related supplies and accessories such as lead wires and sensors; ambulatory, long term, 3 channel, solid state, non-compressed data storage equipment for storing physiological data namely hard discs and flash cards; blood pressure cuffs; cardiology equipment, namely, holter-style long term, ambulatory electrocardiograph (ECG) recorders, scanners, and analyzers; computer hardware and software for patient physiological parameter documentation and patient information management for direct patient care; ECG lead wires between patient and equipment; ECG monitors featuring digital loop event and electronic/telephonic transmitters recorders; ECG stress test monitors and treadmills for medical purposes; portable ECG recorders; digital ECG recorders; electrocardiographs; electrodes for medical use; heart monitors; heart monitors to be worn during exercise; holter-style ECG monitoring recorders and data analysis equipment; long term, ambulatory electrocardiograph recorder; long term, ambulatory, electrocardiograph (ECG) blood pressure equipment, namely, ambulatory recorders, scanners, and data analyzers; peripheral ambulatory cardiology related equipment, namely, ambulatory recording kits, comprising tape, digital flash cards, electrical leads, and electrodes, patient diaries, and recorder pouches; medical device, namely, a microprocessor receiver and transmitter for transmitting patient data between peripheral medical devices and a patient monitor; patient monitoring systems and clinical information systems namely, bedside monitors, patient monitors, central monitors, transport monitors, physiologic measurement monitors, medical sensors, display terminals, medical telemetry transmitters, antennas and receivers all for monitoring, obtaining, displaying, transmitting and storing patient information and physiological parameters from patients such as heart rate, body temperature, level of consciousness, cardiovascular status, ventilation, spirometry, blood gas, capnography, respiration, electrocardiography, electroencephalography, electromyography, hemodynamics, drug doses, blood pressure, and blood oxygen saturation; medical devices, namely , bedside monitors, patient monitors, central monitors, transport monitors, physiologic measurement monitors, medical sensors, display terminals, all for monitoring, obtaining, displaying, transmitting and storing patient information and physiological parameters from patients such as heart rate, body temperature, cardiovascular status, capnography, respiration, electrocardiography, blood pressure, and blood oxygen saturation; medical device for measuring patient physiological parameters, namely, ECG (heart rate and arrhythmias), respiration, oxygen saturation (spo2), invasive blood pressures, non-invasive blood pressure, cardiac output, temperature, carbon dioxide concentrations, and anesthetic agent concentrations; patient monitoring systems comprising monitors, clinical information servers for storing patient information, and central monitoring stations for direct patient care; patient monitors for use in monitoring patients physiological parameters; ventilators and anesthesia machines for use in patient care; wireless transmitters and receivers for use with medical telemetry devices and patient monitoring devices

SERVICES

Computer services, namely, remote and on-site management of medical information technology (IT) systems of others; data recovery services

(1) Motors for motor vehicles; engine motors, electric motors; motor vehicle engines; internal combustion engines for motor vehicles; motors for fans and blowers; electric motors for door locks and door closers; electric motors for fuel pumps and fuel injectors; linear and hydraulic engine actuators, namely throttle valves, idle speed controllers, linear actuators, air regulating valves, air damper actuators and exhaust gas recirculation valves; fuel supply units, namely, pumps and injection valves; fuel mixture processing equipment, namely, fuel and air mixture regulators, fuel valves, and fuel nozzles being parts on internal combustion engines; fuel injection modules, fuel injectors, and fuel injector parts; compressed air pumps; ignition systems for internal combustion engines, namely, electronic ignitions, ignition cables and ignition electrodes for use in motor vehicles; engine actuators, namely, throttle valves, idle speed controllers, linear actuators, air regulating valves, air damper actuators, exhaust gas recirculation valves for use in motor vehicles; tools for assembling and repairing fuel supply and fuel injection systems in motor vehicles; scientific , nautical, surveying, electrical, mechanical, electromechanical and optical weighing, measuring, signaling, checking (supervision), regulating and controlling apparatus and instruments, namely, pressure gauges, tachometers; computers, electronic idle speed controllers, multimedia apparatus, namely, media players for the storage, transmission and representation of text, graphics, images, audio files and video files, namely, CD players, DVD players, MP3 players, radios, position finding apparatus, namely, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, rudder angle indicators, tire pressure testing apparatus, reverse monitoring apparatus, namely, reversing alarms for vehicles, transmitters, namely, radio transmitters, video transmitters, telephone transmitters, service display panels, telematics apparatus, namely, computer hardware and software integrated with wireless communication devices for providing telematics services, telephone receivers, brake and tire part wear indicator gauges and lights for motor vehicles, vehicle maintenance indicator gauges and lights for motor vehicles, diagnostic and testing machines for motor vehicle workshops, odometers, time recording apparatus, namely, clocks and engine hour

meters; controls for window winding apparatus for motor vehicles; sliding roofs and sunscreen units for use in motor vehicles; electronic controls for central locking units for use in motor vehicles; electric, electronic, optoelectronic, mechanical, analog and digital display screens, computer software for image processing for use in motor vehicles; computer display screens, computer monitors, liquid crystal displays, flat screens, and video screens and monitors for use in motor vehicles; solenoid valves; fuel cells, fuel cell installations for use with reactors, membranes, electrodes, anodes, cathodes, catalysts, electricity generators, hydrogen generators, valves, cables , sensors, gas concentration, moisture separators, heating and cooling systems, pumps and containers for preparation and storage of fuel or component parts thereof; electronic driver and vehicle information systems, namely, display instruments, multiplex networks, accident data recorders, combination instruments, tachographs, service interval indicators, sensors, wiring harnesses; control panels for information management, namely, control switches and display panels, on-board computers, multiplexers, human-machine interfaces, accident data recorders, bus systems, namely, multiplexers for use in motor vehicles; electronic sensors for motor vehicle instrumentation; engine control and engine regulation systems for internal combustion engines of motor vehicles; electronic controllers and regulators for idle speed, rotational speed, vehicle speed for motor vehicles; electronic gas pedal controllers and regulators; electronic monitoring and diagnostic machines and systems primarily consisting thereof for engines and drive trains in motor vehicles; electric and electro-hydraulic steering aids; electric batteries and parts therefor for motor vehicles; accumulators for motor vehicles; audio and video recorders, audio and video receivers, radio and video transmitters, audio speakers, and video screens for recording, receiving, transmission and reproduction of analog and digital signals, sound and images, for motor vehicles; antennas, radios, television sets, telephone apparatus, namely, video telephones; touch sensitive video screens; electric gas pedals, namely, accelerator pedals in the form of controls, regulators and switches for use in motor vehicles; fuel supply units, namely, fuel level gauges fuel level meters; motor vehicle control panel consisting of instrument panels, displays, switches, buttons, electronic illuminated display panels, dashboards (instrument panels) and wiring harnesses; heaters, air conditioners, and ventilators for motor vehicles; blowers and fans for motor vehicles; parts for motor vehicles, namely, automobiles, trucks, buses, motorcycles, boats, tractors, earth moving machines, trains, aircrafts; electric, electronic, hydraulic, pneumatic and mechanical actuators, transmission shafts and electric motors for land vehicles; parts for motor vehicles, namely, cock pits, control panels, instrument panels, center consoles, interior paneling, cock pit transverse members, driver workstations comprised of a pitman arm, steering column, steering wheel and ignition lock; driver's cabs for motor vehicles; hydraulic steering aids; ventilation nozzles, air control elements and air pipes being parts for HVAC installations in vehicles, namely, air dispersion ducts for distributing and dispensing air, and control devices used in air ducts to regulate the flow of air; filters, pumps and valves for windshield and headlight cleaning systems for motor vehicles; fuel lines and fuel rails for motor vehicles; mechanisms for opening and closing vehicle windows, tailgates, sliding roofs, sunscreen units and convertible tops; actuators for central locking systems; air pumps for vehicle tires; motors for door locks and door closers for land vehicles; fuel supply units, namely, pumps, swirl pots, fuel rails and injection valves sold as a unit; swirl pots; forms, printed forms, rolls of printed materials and tachograph disks for use in tachographs in connection with motor vehicle fleet management.

(2) Motors for motor vehicles; engine motors, electric motors; motor vehicle engines; internal combustion engines for motor vehicles; motors for fans and blowers; electric motors for door locks and door closers; electric motors for fuel pumps and fuel injectors; linear and hydraulic engine actuators, namely throttle valves, idle speed controllers, linear actuators, air regulating valves, air damper actuators and exhaust gas recirculation valves; fuel supply units, namely, pumps and injection valves; fuel mixture processing equipment, namely, fuel and air mixture regulators, fuel

valves, and fuel nozzles being parts on internal combustion engines; fuel injection modules, fuel injectors, and fuel injector parts; compressed air pumps; ignition systems for internal combustion engines, namely, electronic ignitions, ignition cables and ignition electrodes for use in motor vehicles; engine actuators, namely, throttle valves, idle speed controllers, linear actuators, air regulating valves, air damper actuators, exhaust gas recirculation valves for use in motor vehicles; tools for assembling and repairing fuel supply and fuel injection systems in motor vehicles; scientific , nautical, surveying, electrical, mechanical, electromechanical and optical weighing, measuring, signaling, checking (supervision), regulating and controlling apparatus and instruments, namely, ammeters, voltmeters, ohmmeters, pressure gauges, thermometers, tachometers; apparatus and instruments for measuring and displaying exhaust gas temperature, distance, acceleration, rotational speed, torque, yaw rate, pressure, liquid level, in particular fuel level and windscreen washer liquid level, filling level, speed, height, cooling water temperature, boost pressure, power, air quality, mass airflow, oil level, oil pressure, position, rudder angle, temperature gauges, path, distance (odometers), wind and water depth; axle load monitoring apparatus, car alarm apparatus, apparatus for checking the presence of persons, distance warning and control apparatus, anti-theft alarms, anti-theft detection apparatus, rotation speed warning apparatus, drowsiness warning apparatus, speed control apparatus, optical and acoustic speed warning apparatus, computers, navigation apparatus, electronic idle speed controllers, multimedia apparatus, namely, media players for the storage, transmission and representation of text, graphics, images, audio files and video files, namely, CD players, DVD players, MP3 players, radios, position finding apparatus, namely, global positioning system (GPS) receivers, global positioning system (GPS) transmitters, rudder angle indicators, tire pressure testing apparatus, reverse monitoring apparatus, namely, reversing alarms for vehicles, transmitters, namely, radio transmitters, video transmitters, telephone transmitters, service display panels, telematics apparatus, namely, computer hardware and software integrated with wireless communication devices for providing telematics services, telephone receivers, brake and tire part wear indicator gauges and lights for motor vehicles, consumption meters, vehicle maintenance indicator gauges and lights for motor vehicles, diagnostic and testing machines for motor vehicle workshops, odometers, time recording apparatus , namely, clocks and engine hour meters; controls for window winding apparatus for motor vehicles; controls for convertible tops, sliding roofs and sunscreen units for use in motor vehicles; electronic controls for central locking units for use in motor vehicles; remote controls for central locking systems, electronic immobilizers for motor vehicles; electric, electronic, optoelectronic, mechanical, analog and digital display screens, computer software for image processing for use in motor vehicles; computer display screens, computer monitors, liquid crystal displays, flat screens, and video screens and monitors for use in motor vehicles; solenoid valves; fuel cells; fuel cell installations for use with reactors, membranes, electrodes, anodes, cathodes, catalysts, electricity generators, hydrogen generators, valves, cables, sensors, gas concentration, moisture separators, heating and cooling systems, pumps and containers for preparation and storage of fuel or component parts thereof; cooling water temperature systems (consisting predominantly of temperature detection and control apparatus); electronic driver and vehicle information systems, namely, display instruments, multiplex networks, accident data recorders, combination instruments, tachographs, service interval indicators, sensors, wiring harnesses; control panels for information management, namely, control switches and display panels, on-board computers, multiplexers, human-machine interfaces, accident data recorders, bus systems, namely, multiplexers for use in motor vehicles; sensors and systems consisting thereof for windscreen washer controls; electronic sensors for motor vehicle instrumentation; engine control and engine regulation systems for internal combustion engines of motor vehicles; electronic controllers and regulators for idle speed, rotational speed, vehicle speed for motor vehicles; electronic gas pedal controllers and regulators; electronic monitoring and diagnostic machines and systems primarily consisting thereof for engines and drive trains in motor vehicles; electric and electro-hydraulic steering aids; electric batteries and parts therefor for motor vehicles; accumulators for motor vehicles; audio and video tape recorders, audio and video receivers, radio and video transmitters, audio speakers, and video screens for recording, receiving, transmission and reproduction of analog and digital signals, sound and images, for motor vehicles; antennas, radios, television sets, telephone apparatus, namely, video telephones; touch sensitive video screens; electric gas pedals, namely, accelerator pedals in the form of controls, regulators and switches for use in motor vehicles; fuel supply units, namely, fuel level gauges and fuel level meters; motor vehicle control panel consisting of instrument panels, displays, switches, buttons, electronic illuminated display panels, dashboards (instrument panels) and wiring harnesses; heaters, air conditioners, and ventilators for motor vehicles; blowers and fans for motor vehicles; parts for motor vehicles, namely, automobiles, trucks, buses, motorcycles, boats, tractors, earth moving machines, trains, aircrafts; electric, electronic, hydraulic, pneumatic and mechanical actuators, transmission shafts and electric motors for land vehicles; parts for motor vehicles, namely, cock pits, control panels, instrument panels, center consoles, interior paneling, cockpit transverse members, driver workstations comprised of a pitman arm, steering column, steering wheel and ignition lock; driver's cabs for motor vehicles; hydraulic steering aids, steering columns, steering gears; ventilation nozzles, air control elements and air pipes being parts for HVAC installations in vehicles, namely, air dispersion ducts for distributing and dispensing air, and control devices used in air ducts to regulate the flow of air; windshield and headlight cleaning systems for motor vehicles and adapted containers, nozzles, hoses, hose couplings, filters, pumps and valves for windshield and headlight cleaning systems for motor vehicles; fuel lines and fuel rails for motor vehicles; mechanisms for opening and closing vehicle windows, tailgates, sliding roofs, sunscreen units and convertible tops; actuators for central locking systems; air pumps for vehicle tires; motors for door locks and door closers for land vehicles; fuel supply units, namely, pumps, swirl pots, fuel rails and injection valves sold as a unit; swirl pots; forms, printed forms, rolls of printed materials and tachograph disks for use in tachographs in connection with motor vehicle fleet management.

SERVICES

Trust transactions, namely management of foreign business interests, including pricing control, supervision and monitoring as well as billing and price analysis for others, business organizational and professional business consultancy in relation to control, supervision, monitoring, security services and fee systems in relation to the use and operation of transportation systems, navigation services, traffic information services, and breakdown and rescue services; organizational consultancy relating to granting rights of use for mobility systems, namely, transportation networks comprised of mass transit, namely, buses, trolleys and trains, and short term rentals of private vehicles, namely, automobiles, motorcycles, scooters, and bicycles; financial consultancy relating to granting rights of use for mobility systems, namely, transportation networks comprised of mass transit, namely, buses, trolleys and trains, and short term rentals of private vehicles, namely, automobiles, motorcycles, scooters, and bicycles; maintenance, assembly and repair of apparatus for analyzing tachograph disks, tachographs, accident data recorders, electronic logbooks and motor vehicle testing and diagnostic apparatus and instruments; maintenance of computer programs for analyzing the operating state, namely, the motion state, of vehicles, electric, electronic and mechanical operating hours and engine revolution counters and fleet management systems, namely, working-time monitoring apparatus, speed monitoring apparatus; technical consultancy relating to granting rights of use for mobility systems, namely, transportation networks comprised of mass transit, namely, buses, trolleys and trains, and short term rentals of private vehicles, namely, automobiles, motorcycles, scooters, and bicycles; configuration and updating of software (software upgrading).

CLAIMS

Priority Filing Date: GERMANY July 26, 2012, Application No: 302012041645.4/09 in association with the same kind of goods and in association with the same kind of services. Used in GERMANY on goods (2) and on services. Registered in or for GERMANY on November 19, 2012 under No. 302012041645 on goods (2) and on services. Proposed Use in CANADA on goods (1)

Application Number 1,545,342(01) **Filing Date** 2016-06-13
Language of Application English

APPLICANT AND REPRESENTATIVE FOR SERVICE

Applicant
Landis+Gyr AG, Theilerstrasse 1, 6301 Zug,
SWITZERLAND

Representative for Service
GOWLING WLG (CANADA) LLP
SUITE 2600, 160 ELGIN STREET, OTTAWA,
ONTARIO, K1P1C3

TRADEMARK

Supply Response

SERVICES

Scientific and technical consulting regarding power monitoring devices and apparatus, namely, meters, hand-held electronic meter readers for reading, storing and transmitting electricity commodity distribution data, advanced and automatic switches, software and control, synchrophasors, control systems, transformers, inverters, sensing devices (electricity flow, frequency power, current intensity and voltage values, status of switches and activity), technical consulting concerning management of energy, energy conservation related to energy efficiency and energy use and of energy customers, compilation of data on energy and its customers, the energy trade and market, information on energy, energy invoicing and tariff setting, calculation and breakdown of energy costs; scientific analysis of energy usage, consumption, and conservation data for commercial, industrial, government and residential sites, demand response, load management and curtailment of loads and unwanted generation, Response to energy supply availability; industrial analysis and research services in the field of energy supply and demand, energy consumption, and energy costs; design and development of computer hardware and software; legal consulting and representation; engineering and energy trade services in the field of energy supply and demand, energy consumption, and energy costs, energy quality management, electric grid protection and balance; software development; products, services, and solutions planning and development services, namely, development of electrical engineering products, electronics products, information technology products, communications technology products, optics and mechanical engineering products, products for the measurement and control of production, transport and consumption of energy, building automation and heating products, ventilation and air conditioning plant products, and products for the control and regulation of such installations, telecommunications products and products for the remote control, remote monitoring and remote management of telecommunications products, products for credit authorization and billing and payment for services and merchandise, and also of identification, authorization and cash-free means of payment; technical advice in the field of energy management, energy customer management, determination of energy data and customer data, the energy market and the energy trade, energy reporting, energy billing and energy rating, calculation and billing of energy costs; scientific analysis of energy data; development, updating and maintenance of software for management of energy, energy management devices and systems, and energy customers, the compilation and analysis of data on energy and customers, the energy market and trade, energy invoicing and tariff setting, calculation and breakdown of energy costs; drawing up target specifications. drawing up technical reports in the domain of data acquisition regarding energy, customers, the energy market and the energy trade; accreditation, certification, technical testing and technical or scientific conduct of sample testing of installations, apparatus and appliances in the field of energy management, energy customer management, determination of energy data and customer data, the energy market and the energy trade, energy reporting, energy billing and energy rating, calculation and billing of energy costs; technical planning of installations, namely, drawing up of target specifications and technical reports in the domain of data acquisition for management of energy and energy customer management, collection of data on energy and on its customers, the energy market and trading, information on energy, calculation and breakdown of energy costs, namely, establishment of specifications; fraud detection services, namely, monitoring energy supply and trade companies and energy customers in connection with management of energy, energy customers, the energy market and trading, information on energy, energy invoicing and tariff setting, calculation and breakdown of energy costs for fraudulent activity; technical infrastructure planning for sales outlets, namely, planning of building automation, heating, ventilation and air conditioning systems, telecommunications systems, and identification authorization and cash-free means of payment systems; calibration and testing of metering equipment; calibration and testing of apparatus and appliances in the field of energy management, energy customer management, determination of energy data and customer data, the energy market and the energy trade, energy reporting, energy billing and energy rating, calculation and billing of energy costs, calculation and billing of charges and the administration of energy customer processes

CLAIMS

Used in CANADA since at least as early as November 24, 2015 on services.
